New Air Transport Management in AY2019/20 Intake

Skilled Air Transport Professionals for Aviation Transformation

With the development of Changi Airport Terminals 4 and 5, manpower needs in the aviation sector are projected to increase till 2035. To strengthen the pipeline of skilled aviation professionals in order to meet future manpower demand in the expanding aviation industry, SIT will launch the **first and only Air Transport Management** degree programme in Singapore. The curriculum for the three-year programme has been developed in close partnership with the Civil Aviation Authority of Singapore (CAAS) and aviation companies.

SIT Degree in Air Transport Management

The Singapore Institute of Technology (SIT) has developed a new Bachelor of Science in Air Transport Management. This is the first MOE-recognised degree programme for air transport. It will strengthen the pipeline of skilled aviation professionals for aviation transformation.

The three-year degree curriculum has been developed in close partnership with SIT, CAAS, and aviation companies. It includes modules on airport operations and management, airline business fundamentals, airline marketing, revenue analysis and management. There will also be an 8-month Integrated Work Study Programme to prepare undergraduates for industry. SIT plans to take in 50 students for the first intake. Classes will begin in 2019.

SiT introduces dietetics degree to meet demand

Jolene Ang
© Dec 27, 2018 06:00 am

f t o

Demand for dietitians in Singapore has grown significantly with the ageing population here increasing.

Citing Ministry of Health figures, the Singapore Institute of Technology (SiT) said from 2010 to 2015, the demand for dietitians in acute care increased 56 per cent.

To meet the need, SiT is introducing a new four-year dietetics and nutrition degree programme.

Currently, students have to go abroad, or enrol in local private educational institutes, to earn a recognised dietetics academic qualification.

<https://www.tnp.sg/news/singapore/sit-introduces-dietetics-degree-meet-demand>

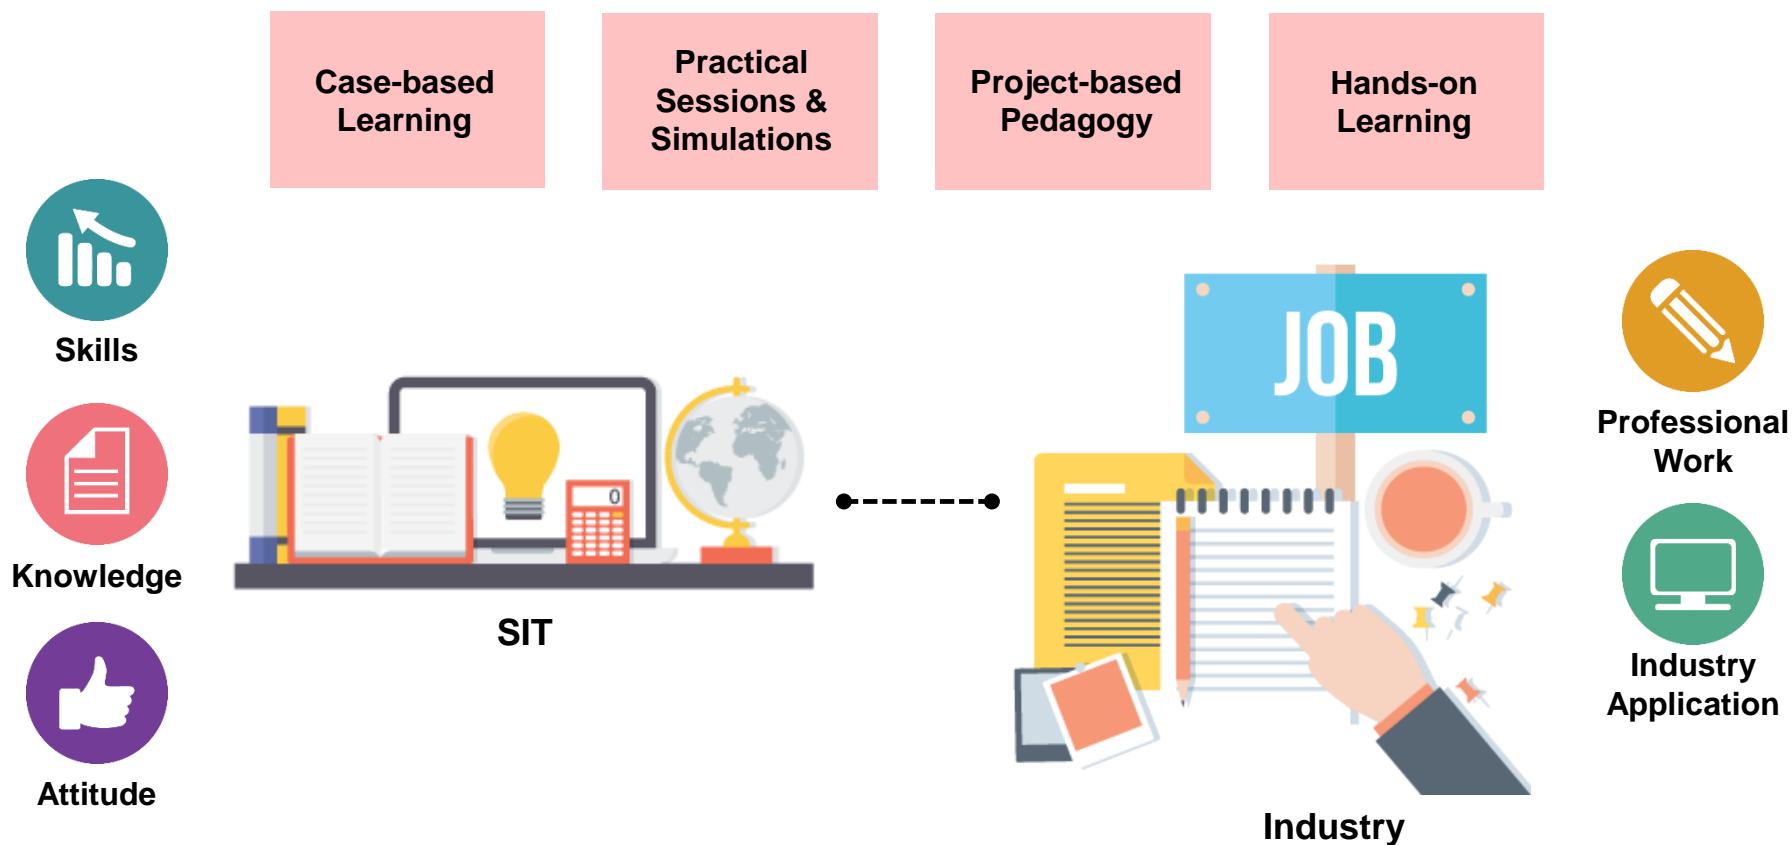

The **Bachelor of Science with Honours in Dietetics and Nutrition** is a four-year degree programme that aims to address the growing demand for dietetics manpower in hospitals and intermediate long-term care (ILTC) settings in Singapore.

Dietitians apply scientific knowledge of food and human nutrition to:

- **Maintain** and **promote** the **health** of individuals, groups, and the community
- **Manage** and **treat** medical conditions

Pedagogy that connects academic knowledge and skills with real world applications in industry

Integrated Work Study Programme (IWSP)

- Compulsory feature of all SIT-conferred and joint degree programmes
- Longer attachment for greater depth (6 to 12 months)

Professional Skills

Experience the entire process from submitting job applications to being fully trained in a job. Leverage on the IWSP to understand broader industry trends and their impact on your job and career.

Integrating Knowledge and Practice

As 'Thinking Tinkerers', the knowledge and skills learnt in your programme will allow you to better analyse situations and apply principles to actual work performed on the job.

Skills for Innovation In Companies

IWSP challenges you to initiate innovative projects under the guidance of SIT's mentors and company-appointed supervisors, giving you opportunities to solve real issues in your companies.

SIT Graduates Enjoy High Employment Rates

SIT fresh graduates most employable among local universities, longer internships pay off

Admission Requirements

SIT adopts a holistic approach in assessing applicants for admission by considering the following criteria:

- Full-Time Polytechnic Diploma/A Level/IB Diploma/other Yr 12 equivalent
- Relevant Work Experience/Internships
- Interview Performance
For specific degree programmes, applicants may have to submit portfolios or essays, or be assessed through written tests.
- Co-curricula Interests
- Passion/Personal Qualities

Admission Process

All applications and supporting documents are to be submitted online via the SIT website: <https://www.SingaporeTech.edu.sg>.

You have up to 5 choices in the application form.

Places will be reserved for NS-liable male applicants who are successful in their application (fees will follow the year of application).

Interview Formats

Shortlisted applicants will be further assessed at an interview session to determine their suitability for admission.

Programme	Interview Format
Allied Health Programmes	Multiple Mini Interviews
Criminology and Security	<ul style="list-style-type: none">• 1 Written Test• 1 Individual Interview
Hospitality Business	<ul style="list-style-type: none">• 1 Group Interview• 1 Individual Interview
Information & Communications Technology	<ul style="list-style-type: none">• 1 Individual Interview• 1 Group Interview
Other Programmes	<ul style="list-style-type: none">• Only 1 interview session (either group or individual)• Some may require a Portfolio or Math Entrance Test
